NOTES AND PRECIS.

Secretary:

Please see letter dated 6/8th February 1935 to the President of His Majesty's Silver Jubilee Fund (~~P.U.C.~~ L).

The whole question has been at a standstill for some time. When Major McCann assumed charge of St. Martha's Hospital I sent the file to him, and he has now, after full discussion with the Superioress, come to the conclusion that by a rearrangement, a certain number of beds could be made available for incurable patients in the existing buildings and that, therefore, the cost of reconstruction need not be faced. The question, however, is one of providing nursing facilities, and Major McCann estimates that for a maximum sum of Rs.200/- a month he could provide for 6 to 10 beds for incurable patients. I give below extracts of his note to me on the subject:—

"We have gone into the question very carefully and come to the conclusion that St. Martha's Hospital as it is at present staffed (nursing and menials especially) and equipped, could not possibly take over the work and responsibility of an Incurable Ward or Home, were it constructed in the compound, or adjoining it."

"The initial cost, and monthly maintenance would be as mentioned before. In addition a separate staff would be required, as the present nursing staff etc., is insufficient in quality and quantity for the routine work at St. Martha's with the ordinary acute cases."

"There are in St. Martha's 12 small rooms which are usually full, and occupied by chronic

cases, who pay from 3 to 4/- per day, and many cases of an incurable nature come into the public wards and stay for varying periods. These can usually be accommodated, and if a grant for maintenance of say six beds, 3 male and 3 female could be obtained from Government, the Rev. Mothe would be pleased to help in the matter. The suggested grant of Rs.200/- a month would in my opinion be suitable. This would then obviate the initial grant for building. This is the only way in which St. Martha's could help."

"The question of X-Rays and Electro-Therapeutic work could be arranged with other hospitals if required, as we do at present."

"To sum up St. Martha's Hospital can arrange to accommodate and care for a limited number of incurable cases - 6 to 10 - provided a maintenance is received monthly. The exact figure would require detailed calculation, a rough estimate of Rs.200/- monthly would to my opinion be a maximum forecast. It is not so much a question of accommodation as a question of recurring expenditure and obtaining efficient nursing, which will have to be paid for."

The question, of course, is where to find the Rs.200/- a month now required. In this connection please see para (2) of Mr. Glancy's D.O. of the 20th March 1928 (flag "B"), In view of Major McCann's remarks xx accommodation does not need construction and already exists, Does Secretary, therefore, consider that the present would be a suitable time to request Government to increase their donation from Rs.100/- to Rs.200 a month.

S.H.2 / F396-28 (B)

If so, it is, I think, possible that the Red Cross might by annual donations find some at least of the remaining Rs.100/-.

It is to be noted that 5 beds already exist for which Government pays Rs.100/- per month and which are filled by chronic cases sent by the Residency Surgeon. The additional 6 to 10 beds now hypothecated by Major McCann would be in addition to these, and the sum required for their maintenance, which according to Major McCann is almost entirely a question of adequate nursing, would also be additional to the present Rs.100/- a month.

The previous notes relating to this are at paras (1) to (12) of file No.167 of 1932.

The question of erecting a ward for incurables in Bangalore at Government expense has been postponed for want

want of funds. Please see in this connection correspondence at S.Ns. 14 & 15 of file No.10

The point now for consideration is whether present is an opportune time to go up to the of India with a proposal for the increase of now paid to St.Martha's Hospital from Rs.100/- Rs.200/- per mensem to enable the Hospital to some 6 to 10 extra beds for treating incurable actual extra amount required for the provision these additional beds is about Rs.200/- per mer the Residency Surgeon thinks that it is possil the Red Cross Society might find some at leas remaining Rs.100/-.

In the Assigned Tract budget for 1935-36, a sum of Rs.1200/- (at Rs.100/- per mensem) has provided on account of grant to St.Martha's H The Resident has also already written to the of India recommending that the grant may be c during 1935-36 at Rs.100/- per mensem.

The financial position of the Assigned Tr not sound: the expenditure is far in excess c datum line and we were ~~been~~ obliged to make dr cuts in the budget for 1935-36 in order to bal budget. Large grants have to be made to the M lity on account of the water supply year after and our surplus is diminishing rapidly. The r of the financial settlement with Mysore has be in abeyance pending decision on the question o Retrocession; and in the meanwhile the existin ment is to continue. In the circumstances, it necessary that we should keep down expenditure as possible until the position of the Assigned becomes clearer.

It is therefore for consideration whether
question of increasing the grant to St. Martha's

INCREASED GRANT TO ST. MARTHA'S HOSPITAL, BANGALORE CITY, FOR PROVIDING ADDITIONAL BEDS FOR INCURABLES

Sir,

I have the honour to refer to Sir Steuart Pears' letter No.6272/210-1922, dated the 22nd July 1926, recommending that St. Martha's Hospital Bangalore City, might be given a special grant of Rs.60,000/- from Central Revenues for the erection of a special ward for incurable diseases and that the monthly maintenance allowance of Rs.100/- paid to the Hospital out of the Assigned Tract revenues might be increased to Rs.200/- a month from the date of occupation of the proposed ward. Owing to financial stringency the question of a special grant for constructing the ward could not be considered by the Government of India; and consequently the question of increasing the maintenance allowance did not arise.

① Para 1 of notes at-Ⓓ.

⊢ Para 14 of Current notes + S.N.28 (W). F 210-22

2. Facilities for the treatmen incurables are very limited in Banga lore: at present the ① only institut that will take them is ~~the~~ St. Marth Hospital; and even there accommodat exists only for five patients from t Civil and Military Station. ~~there- therefore no doubt that~~ Some additic accommodation for incurable cases i very badly needed; and numerous representations on the subject have made to my predecessors and to myse At the time of handing over charge 1933 Sir Richard Burke drew my atte tion to the pressing need for bette accommodation for incurable cases; on his suggestion I asked the Resid Surgeon to examine the question of viding additional wards in St. Mart Hospital. When Major J.G.McCann, Staff Surgeon, Bangalore, assumed charge of St. Martha's Hospital as Visiting Medical Officer, the Resid Surgeon consulted him on the subjec and he has now, after full discussi with the Lady Superior of the Hospi come to the conclusion that, by a re arrangement, a certain number of ex beds could be made available for in curable patients and that the cost constructing an additional ward nee not therefore be faced at present. There remains, however, the questio providing nursing facilities for th new inmates; for the existing staf

of the hospital could not undertake this duty without some assistance. The Staff Surgeon estimates that for a maximum additional sum of about Rs.200/- a month the Hospital could provide from six to ten extra beds for incurable patients. If the Government could provide Rs.100/-, the Residency Surgeon thinks that it is possible that the Red Cross Society might by annual donations find some at least of the remaining Rs.100/-.

3. When for an extra expenditure of Rs.200/- per mensem, of which Government is at present being asked to pay only half, it is possible to provide from six to ten extra beds in St. Martha's Hospital for the treatment of incurable patients from the Station, it does not seem advisable to postpone action any longer. I therefore request that the Government of India may be pleased to increase the monthly maintenance allowance now paid to St. Martha Hospital from Rs.100/- to Rs.200/-. As provision for the additional grant has not been made in the Assigned Tract budget for 1935-36, and as it may not be possible to meet the extra expenditure by reappropriation within the sanctioned budget, I request that the Government of India may also be pleased to sanction the necessary additional funds.
